

HUSSAR LADIES WILL PUT ON COMEDY PLAY

Three Act Comedy Will Be Presented by Hussar Ladies Wednesday, January 11th—News Budget from Hussar District

HUSSAR, Jan. 3.—A company of Wednesday evening, January 11th. Hussar ladies will present a three act comedy in the Community Hall on

Mrs. Blanche Newman — A Bride
Mrs. Henrietta Ashton — Her Sister from Boston
Maud Ashton — An Overgrown Girl
Mrs. Newman's Colored Cook
Bridget O'Hanigan — A Wash Lady
Mrs. O'Hanigan — An Old Grandmother of the Past
Mrs. Harris — Her Daughter
Dr. Georgiana Jordan — A Quack Doctor
Mrs. Whitney — Inclined to be jealous
Mrs. Reynolds — Something of a bargain hunter
Mrs. Harry Hudson — Inclined to be nervous
Mrs. Skyles — A Woman of Faith

Mrs. Pauline Kyle
Mrs. J. Clifford
Mrs. Gladys Thew
Mrs. L. LeGrande
Mrs. Bettley
Mrs. W. D. Moffat
Mrs. Joe Cooney
Mrs. T. Burdett
Mrs. A. Anderson
Mrs. E. McDonald
Mrs. Jean Elliott
Mrs. H. D. Brown

"Cribbing a Husband" is the name of the comedy. The Hussar Orchestra will play between acts, and a dance will follow the entertainment. The play will begin at 8 o'clock sharp.

James Dundas is here visiting his sisters, Mrs. Chas. Hall and Mrs. K. Bowerman. Mr. Dundas has purchased a farm near Vegreville.

Mr. and Mrs. McLaughlin and Jack, of Winnipeg, and Mr. and Mrs. Middleton, of Calgary, visited Mr. and Mrs. McDonald over the weekend.

There will be church service here in the school house Sunday evening, Jan. 8th, at 7.30. Dr. Ferguson, of Calgary, will conduct the service.

Mr. Page, our school principal, spent his vacation in and near Calgary.

The school re-opened Tuesday Jan. 5th after a two weeks' holiday.

Mr. and Mrs. Ralph Armstrong were in Bassano Monday night.

Ray Vergey and "Dutch" Bryant left Saturday for a trip to the States. They expect to go as far south as California.

Miss Margaret Reeves and Gordon Reeves are visiting in Calgary.

Gwen Stiles, of Bassano, and Earl Deak, near Kamouristown, were in Calgary, visited Mrs. Edith Stiles during the Christmas holidays.

Mrs. Pauline was a Calgary visitor this week.

Mr. and Mrs. Blaine Squires have gone to Calgary where they will live part of the winter.

Mr. and Mrs. Frank Farley came home from Camrose Tuesday.

Born, New Year's Day, 1928, to Mr. and Mrs. Herman Larsen, of Hussar, a baby boy.

Mr. and Mrs. Verne Haddock left Tuesday for Spokane, Washington, where they will spend the winter.

Miss O'Brien, teacher at the Adams Lake school, spent her vacation in Calgary and Pleasant Creek.

Jason and Bruce Bell went to Bassano Monday night, and from there will go back to school, Bruce to Edmonton and Jason to Calgary.

The Misses Evelyn Clifford, Jessie Paul, Eleanor Moffat, Jessie Elliott, and Irene Tierney, returned to Calgary Tuesday.

Cards have been received here announcing the marriage of Miss Gladys Skelton to Mr. Cumberland at Stettin, Minn., where Miss Skelton was primary teacher here last winter.

T. Matigorey, who is employed by the Curtis E. Milroy, has spent the holidays with his family in Calgary.

Miss Veril Severn and Mr. Lester Snyder were married Dec. 28th at the home of the bride's parents near Rockyford. After a two month trip to the coast, Mr. and Mrs. Snyder will make their home on the Snyder farm north of Hussar.

The following is the yearly report:

Duchess Now

DUCHESSE, Jan. 3.—Don't forget this big fair at play on Monday and Tuesday, January 8th and 9th. "The Road to the City."

J. Avery was a visitor here last week.

A good number of people attended the U. P. A. dance here last Friday. Mr. Sutter was a visitor in Duchess during the holidays.

Miss Evelyn Hols has returned to school after a pleasant holiday at her home in Duchess.

Miss O. Hols has returned to her work at her school duties.

A number of Duchess people spent very enjoyable New Year's Day at the home of Mr. and Mrs. Roy Clark.

of the Hussar Floral Club.

Balance on hand Jan. 1, 1927 \$ 24.00
Money from boxes 22.88
Donations, card party, supper 50.87
Balance on hand Jan. 1, 1928 55.23

During the year 38 bouquets were sent to persons ill in Hussar and district.

MUSIC REPORT

Beginners

1 Bonita Johnson, 2 Edith Angell and Jean Johnston, 3 Douglas Ford and Dorothy Beeher, 4 Myra Samuelsen, 5 Betty Johnson.

Primary

1 Dorothea Hall, 2 Quentin Allen and Pauline Cadot, 3 Edwin Beck and Jean Johnston, 4 Betty Palmer and Owen Stiles, 5 George Stiles.

Intermediate

1 Mae Johnson, 2 Arlene Johnson, 3 Jimmie McDonald and Lois Arison, 4 Lower.

1 Phyllis Plummer, 2 Margaret Beeher, 3 Helen Travis, 4 Lyle Davidson, 5 Donald Walker, 6 Phyllis Samuelsen.

Higher

1 Florence Playfair, 2 Winifred Playfair, 3 Eleanor Hoffmeister.

Michael Fights

Septon January 12

Promising Young Boxer Will Fight Calgary Colored Boy in the Main Bout.

One of the best boxing cards to be put on in Bassano in a long time will be staged in the Glen Theatre Thursday evening, January 12th.

The card consists of two preliminaries, the semi-final, and the main bout, and according to reports, fight fans will see some real classy stic work.

Stanley Michael, of Bassano, formerly of Rosemary, will meet Ed Septon, a colored boxer, of Calgary, in the main go of the evening, ten rounds of three minutes each.

Michael will give away six pounds to his colored opponent, as Septon weighs 175 pounds, and Michael 165. Michael, however, is a wall built, sturdy young fellow, and will probably make up in speed what he lacks in weight.

The first two preliminaries will be of four rounds each, and in the semi-final Harry Ingardfield, of Rosemary, is matched against Aubrey Walker, of Wenatchee, Washington, in a six round bout.

Several normal students from Glen left on the Tuesday train for Calgary.

May Heidt was ill the first of the week.

Mr. and Mrs. Royal Burrows and children, Mrs. May Burrows, and Mrs. Jensen, at Christmas dinner with Mr. and Mrs. E. R. Heidt.

Mr. and Mrs. Ralph Burrows returned from their honeymoon the last of the week, and will soon be at home at the Ralph Burrows' farm.

A bunch of fat cattle was bought up in the district and driven to Bassano for shipment Tuesday.

School reopened bright and early Tuesday morning at Countess.

Miss L. Bingham was a passenger on Monday's train, returning from a home in Edmonton.

Mr. and Mrs. Royal Burrows are moving in the Yon house for the present.

Mr. and Mrs. Dingley were called at the Ferguson home on Christmas Day.

Mrs. Fred Robinson and son Teddy had a party at the Ferguson home for Seattle where they will visit some time with Mr. and Mrs. C. Baughman, parents of Mrs. Robinson.

HOSPITAL FOR VULCAN

A vote in the Vulcan municipal hospital gave a decisive victory in favor of the erection of a hospital.

Shieks Outlaws Gleichen But Lose Game 3-2

Gleichen Goal Tender Wins Game for His Team

Playing a return game in Gleichen on Monday, Jan. 22nd, the Bassano Junior hockey team led by the score of 3 to 2. The Shieks had the advantage of the play all the way through the game, and it was only the marvelous goal keeping of Pat Beach on the Gleichen team that saved his team from a severe trouncing.

Time and again the Shieks broke through the Gleichen defense, and drove hard for the goal, but Beach was nearly always there, and allowed the counters to get by him. The Bassano boys worked Beach pretty hard, and he had to stop seven or eight times more shots than the Bassano goal.

Gleichen and Hayes each scored for the Shieks.

The Bassano lineup was: goal, J. Schuchert, defense, A. Yale and Roy Hayes; centre, A. Simpson; left wing, Jakey Bulmer; right wing, Raymond Gayford; sub, Bob McDonald.

Countess News

COUNTRESS, Jan. 4.—Mr. and Mrs. R. Heidt entertained at a reception for Mr. and Mrs. Ralph Burrows Wednesday evening. Cards were the diversion of the evening. Those present were: Messrs. and Mesdames H. Ferguson, A. M. Anderson, W. Dingley, J. Stange, G. Thompson, H. Cowen, J. Kelt, M. Gamble, C. A. Stuss, Royal Burrows, Ralph Burrows, Mrs. Mack Ferguson, Mrs. L. Bingham, Miss V. Bramley, P. Robinson, Mr. Matlick, J. Jensen, J. Chasot, Jim Deans, Chas. Springer, A. Wiggins, Mr. Lawrence, Mrs. May Burrows, and Bonnie Ferguson.

Sam Crory was married to Miss Iva Waugh the 26th of December at Boston, Massachusetts.

Mrs. Robertson arrived on Wednesday evening's train to attend to the household duties of A. Matlick.

Mr. and Mrs. H. Cowen had as their guests on Christmas Day Mr. and Mrs. Lovette and children.

Mrs. C. A. Stuss returned from Calgary Monday after a visit with Mrs. C. C. Wilson.

Mr. and Mrs. A. M. Anderson at Christmas dinner with Dr. and Mrs. Armstrong at Gleichen.

Marie Chamberlain returned to Calgary the first of the week where she is attending normal.

Frank Chamberlain and sons Robert and Paul, and Marie Chamberlain, spent Christmas and New Years at the Gamble home.

Mr. and Mrs. W. Dingley were the guests of Mr. and Mrs. Stuss Christmas Day.

Several normal students from Glen left on the Tuesday train for Calgary.

Mr. and Mrs. Royal Burrows and children, Mrs. May Burrows, and Mrs. Jensen, at Christmas dinner with Mr. and Mrs. E. R. Heidt.

Mr. and Mrs. Ralph Burrows returned from their honeymoon the last of the week, and will soon be at home at the Ralph Burrows' farm.

A bunch of fat cattle was bought up in the district and driven to Bassano for shipment Tuesday.

School reopened bright and early Tuesday morning at Countess.

Miss L. Bingham was a passenger on Monday's train, returning from a home in Edmonton.

Mr. and Mrs. Royal Burrows are moving in the Yon house for the present.

Mr. and Mrs. Dingley were called at the Ferguson home on Christmas Day.

Mrs. Fred Robinson and son Teddy had a party at the Ferguson home for Seattle where they will visit some time with Mr. and Mrs. C. Baughman, parents of Mrs. Robinson.

HOSPITAL FOR VULCAN

A vote in the Vulcan municipal hospital gave a decisive victory in favor of the erection of a hospital.

Wedding

PROVISE-BENNETT

A quiet and pretty wedding was celebrated at the home of Mr. and Mrs. E. P. Switzer, 1055 Eleventh Avenue West, Calgary, on Saturday morning, Dec. 31st, when Miss Violet Bennett, the youngest daughter of Mr. and Mrs. D. J. Bennett, of Bassano, became the bride of Mr. Robert Provise, of Calgary, Alberta.

The bride wore a pretty gown of red and carried a bouquet of Opheelia roses. Only immediate members of the family were present at the ceremony, which was performed by the Rev. W. M. Grant, of Hillhurst United Church. The happy young couple left on the afternoon train for California where they will spend the winter.

Mrs. Robertson arrived on Wednesday evening's train to attend to the household duties of A. Matlick.

Mr. and Mrs. H. Cowen had as their guests on Christmas Day Mr. and Mrs. Lovette and children.

Mrs. C. A. Stuss returned from Calgary Monday after a visit with Mrs. C. C. Wilson.

Mr. and Mrs. A. M. Anderson at Christmas dinner with Dr. and Mrs. Armstrong at Gleichen.

Marie Chamberlain returned to Calgary the first of the week where she is attending normal.

Frank Chamberlain and sons Robert and Paul, and Marie Chamberlain, spent Christmas and New Years at the Gamble home.

Mr. and Mrs. W. Dingley were the guests of Mr. and Mrs. Stuss Christmas Day.

Several normal students from Glen left on the Tuesday train for Calgary.

Mr. and Mrs. Royal Burrows and children, Mrs. May Burrows, and Mrs. Jensen, at Christmas dinner with Mr. and Mrs. E. R. Heidt.

Mr. and Mrs. Ralph Burrows returned from their honeymoon the last of the week, and will soon be at home at the Ralph Burrows' farm.

A bunch of fat cattle was bought up in the district and driven to Bassano for shipment Tuesday.

School reopened bright and early Tuesday morning at Countess.

Miss L. Bingham was a passenger on Monday's train, returning from a home in Edmonton.

Mr. and Mrs. Royal Burrows are moving in the Yon house for the present.

Mr. and Mrs. Dingley were called at the Ferguson home on Christmas Day.

Mrs. Fred Robinson and son Teddy had a party at the Ferguson home for Seattle where they will visit some time with Mr. and Mrs. C. Baughman, parents of Mrs. Robinson.

HOSPITAL FOR VULCAN

A vote in the Vulcan municipal hospital gave a decisive victory in favor of the erection of a hospital.

Chinook Wind Follows Rain

Thermometer Jumps Away Above Freezing Point on Wednesday

A light shower of rain began falling about nine o'clock Wednesday morning, Jan. 4th, and continued intermittently for about an hour. The thermometer, which had been rising gradually since early morning, took a sudden upward jump when the rain was followed by a warm chinook wind from the southwest. The thermometer registered 41° on Wednesday night and Thursday.

Rosemary News

ROSEMARY, Jan. 5.—A rain on Wednesday morning and followed by a chinook is now being appreciated by the people of this community.

W. Boyce, of Bassano, was a Rosemary visitor on Wednesday.

Stanley Michael returned to Rosemary on Wednesday and is going to make training for his fight in Bassano on January 12th.

J. Jones and Frank Wilson returned to Bassano after spending Christmas with Mr. and Mrs. Wilson.

Mr. and Mrs. Gladie returned home on Wednesday after spending Christmas holidays in Calgary.

Mr. and Mrs. Elliott enjoyed Christmas with their parents in Calgary.

Stork Has Preference For Boy Babies

Five More Boy Babies Arrive at the Bassano Hospital

The stork, at least the one that visits the Bassano Hospital, has a decided preference for boy babies. This preference for the masculines has been displayed a number of times when a group of six or seven boy babies has been sent to the Bassano Hospital, and not a feminine was to be seen.

The wily bird has been up to his old tricks again, for he has again brought a string of boy babies—five of them this time. The first of the string was a son to Mr. and Mrs. W. Tall, of Queenstown, on Dec. 16th, and the fifth was born to Mr. and Mrs. J. Schuchert, of Calgary, on Wednesday, Jan. 4th.

The warmer weather on Wednesday didn't seem to make any difference, for this was a boy lot.

The other births are: a son to Mr. and Mrs. John Narum, of Rosemary, on Sunday, Dec. 25th. A son to Mr. and Mrs. R. T. Edwards, of Hussar, on Sunday, Dec. 24th. A son to Mr. and Mrs. L. Larson, of Hussar, on Sunday, January 1st.

Firemen Will Hold Whist Drive & Dance

Big Annual Party Will Be Held in the New Masque Community Hall

The Bassano Fire Brigade will stage their annual whist drive and dance on Friday, January 27th. This affair is one of the more popular events of the winter, and always draws a large attendance.

The whist drive and dance will be held in the new Masque Community Hall this year, where there will be more floor space for card tables and dancing. The tickets for the event are now on sale.

Curling News

The chinook which blew up Wednesday morning called a halt on the curling games. Four games were run off Wednesday evening, two schedule games and two cup games. The ice was very keen, but it softened a lot Thursday, and no games were expected to be played that evening.

Blanket's suffered his first defeat in the schedule draw on Wednesday evening, Jan. 4th when he went down to Stiles 14 to 15. This was Blanket's first loss in seven games.

The Night Hawks

The Scott Cup continues to change hands quickly. It moved twice this week, the first time on Monday afternoon when Currie and Scott took it from Piersen and Stiles. Currie won from Piersen 8-6, and Scott defeated Stiles 10-8. McDonald and Piansen were next in line with a challenge, and they fitted the cup Wednesday night, Jan. 4th. Scott defeated Piansen 13 to 6, but Currie lost to McDonald 16-7. Foster and McEwen have a challenge in to be played when the weather is cold enough for curling.

Every team, except that of Piersen and McDonald, has lost the cup in their first defending game. Piersen and McDonald captured the cup from McKenna and McEwen Wednesday night, and successfully defended it on Thursday.

Short courses in agriculture are being given in the University of Alberta from Jan. 24th to Feb. 3rd. The instruction deals with soils, field and garden crops, common insect and disease pests of livestock, common diseases of livestock, farm buildings and machinery. Farmers interested should communicate with Dean B. A. Hovas, University of Alberta.

Thursday, Dec. 16th against McEwen and Scott, and the following day against Piersen and Stiles.

RANCHERS PLOW SNOW SO STOCK MAY GET FEED

Hungry Animals Follow the Snow Plow—Horses Have to Feed For Themselves

The feeding problem this winter is one of the most difficult the ranchers in this part of the province have had to contend with in years. Nearly 18 inches of hard packed snow covers the prairie pastures, and it is impossible for the cattle to get through to the grass that lies underneath the white blanket. Cattle cannot paw the snow like a horse.

They push it aside with their nose, but when the snow is crusted they cannot do this, so the rancher must use a home made snow plow drawn by six or eight horses and break up the crust and push a lot of it aside so that the cattle may graze.

This is what the cattle ranchers are now doing. Every day the snow plows work, and the cattle follow along behind and pick their daily ration. The extreme cold weather that has prevailed for the past few weeks has been hard on the stock, and the chinook and on Wednesday of this week was a welcome break in the cold snap.

Range horses are having a hard time picking a living off the prairie this winter. There is sufficient feed, but the deep crusts now covers it over, and the horses must work hard pawing away all day to get enough nourishment. Unless conditions improve it is expected that many of the range horses will die this winter.

Short courses in agriculture are being given in the University of Alberta from Jan. 24th to Feb. 3rd. The instruction deals with soils, field and garden crops, common insect and disease pests of livestock, common diseases of livestock, farm buildings and machinery. Farmers interested should communicate with Dean B. A. Hovas, University of Alberta.

One of the most beautiful buildings in Western Canada is the "Hotel Saskatchewan," Regina, the new hotel, which was officially opened by J. W. Beatty, President of the Canadian Pacific, on May 24. In it the architects have sought to provide the maximum of convenience and comfort for its guests and to obtain the best pleasing architecture.

Regina's need for a new hotel has been felt keenly for some time, as the city's importance as a capital of the province which furnishes 50 per cent of the Dominion's wheat output, has been steadily increasing. The erection of a hotel of this nature is a necessity, and the removal of the old steel structure has been the first step towards the realization of Regina's dream of a new modern hotel, which at last has been brought about through the enterprise of the Canadian Pacific Hotel Co.

Meaning artistic effects have been achieved throughout the interior of the building. The public rooms, which are a masterpiece of design, are a character of their own. The Tea Room and Reception Room, for instance, have a Spanish atmosphere. The walls of the former are of antique mottled and decorated plaster with a base of stone and a carved stone mantel, while the ceiling is of a wood rib and beam ceiling, painted and decorated.

One of the most comfortable and homelike rooms in the hotel is the library situated in the first floor. The walls are of painted wood with enclosed bookcases.

The exterior is no less beautiful than the interior. It is designed in Georgian style, the first two storeys of the building are of stone and the upper storeys are of brick. The main entrance is particularly striking with its tall Corinthian pilasters and arched windows.

There are 215 guest bedrooms with baths, and space for 50 more in the two top floors of the building, which as yet, have not been finished.

On account of the nature of the soil the hotel was erected on a reinforced concrete mat with structural steel beams and columns embedded in the soil. It is always high and absolutely fire-proof.

United Grain Growers, Limited

Twenty-Year 5% First Mortgage Bonds

Due January 2nd, 1948

These Bonds offer an attractive opportunity for investors and should particularly appeal to residents of Western Canada because of their familiarity with the business of United Grain Growers, Limited, and the success that has attended its operations during the last twenty-one years.

The new issue of \$3,500,000 First Mortgage Bonds is for the purpose of retiring outstanding obligations and of reimbursing the Company for expenditures in connection with the newly completed 5,500,000 bushel elevator at Port Arthur and the recent acquisition of certain country elevators.

The Bonds are adequately secured by assets, while, for five years ended August 31, 1927, net earnings available for interest and depreciation, have averaged more than 4 1/2 times annual interest requirements on all Bonds to be presently outstanding.

Bonds may be obtained in denominations of \$50 or \$1,000. Principal and interest payable at any branch in Canada of The Royal Bank of Canada.

Price: 96.25 and interest, yielding over 5.30%.

Fully descriptive circular will be gladly furnished upon request.

Britain Forges Ahead

There is a glow of gloom which has been predicting the rapid decline of British power and the rise of the world and there is a glow of hope which is beginning to realize that they will have to revise their opinions and readjust their predictions. For evidence accumulates, and fact is being piled upon fact, which go to demonstrate the dominance, prestige and power of the Old Land and the Empire as a whole.

Notwithstanding the fact that Germany was particularly bitter against Britain for entering the world war, and its ally, because it realized that the British entry into the conflict spelled defeat for Germany, it is a fact today that a more friendly feeling exists in Germany towards Britain than is entertained for any other nation which was allied against her.

For a time the anti-British feeling in China was interpreted as being largely an anti-British feeling for the cultivation of which Soviet Russia was largely responsible. But the inevitable reaction has now set in as the true designs of Russia and the true nature of British policy is becoming disclosed and understood.

At the meeting of the Institute of Pacific Relations held at Honolulu last July, Sir Alexander W. Carr, chief unofficial spokesman for Great Britain, presented a memorandum on the history of Anglo-Chinese relations from the time of Lord Macartney's mission in 1793 down to the famous communication of Sir Austin Chamberlain of a year ago. This memorandum dealt fairly with the mistakes made in both nations, and it demonstrated from the past acts of Great Britain that the conciliatory attitude of Sir Austin Chamberlain's document was the logical outcome of these acts.

It is interesting to recall at this time, when the Nationalists of China are breaking off diplomatic relations with Soviet Russia, the manner in which Sir Frederick W. Meyer's memorandum was received by the Chinese Nationalist delegates at the Nanking meeting. These delegates had distributed in advance a printed case against Great Britain, which was replete with sharp criticisms on British foreign policy. But when Sir Frederick presented the other side, so impressed were the Chinese delegates by its fairness and by the British plan for peace, that they recently had not only abandoned the case, but asked for the return of the copies distributed. This is hardly a sign of British decadence in world affairs, or an evidence of loss of prestige. The fact that anti-British feeling has been so completely overcome is a sign of British strength.

Steadily and steadily Great Britain is regaining her position as the financial centre of the world. The pound sterling has returned to par, even in New York, and the flow of gold, which has been almost continuous to the United States for some years, has recently had its first gold shipment from New York to London. Great Britain continues promptly on its side to make her enormous payments to the United States on account of war obligations, and yet her own payment has not become stronger. British financial institutions and industrial concerns are more and more regaining their position in world markets, and whereas during the war British investments and securities in foreign lands and in the overseas Dominions had to be withdrawn in order to carry on the great struggle, British investors are again active throughout the world.

As carriers of the commerce of the world, and the great commercial clearing house for all nations, Britain remains supreme. In ship building, despite all the efforts of other nations, Britain retains the leadership by a wide margin.

And to this general improvement in position the overseas Dominions of the Empire, led by Canada, are contributing an ever increasing share.

Canada's Trade

The Commerce is busy, it appears, seeking out new markets for its goods, and every effort is to be made this year, it is promised, to get a larger share of the business with Central and South America by developing a careful survey of the field recently conducted by C. C. T. O'Brien, Deputy Minister of Trade and Commerce. Within the last six months Canada's trade with those countries amounted to \$28,000,000, of which exports were slightly under half, or \$15,700,000.

The number of bicycles used in France in 1936 amounted to 7,112,300, ten times the number of automobiles in use during the same year.

The thought of a mass movement should be noteworthy.

Britain's Famous Oaks

May Become Myth As Trees Of More Rapid Growth Are Being Planted

It looks as though the famous oak of England might soon become merely a myth. Many stately trees were sacrificed to supply the needs of man during the great war, and in the cleared areas trees that are of more rapid growth are being planted in preference to Britain's sturdy emblem of solidity and strength.

On the subject of "Oaks," a writer in *Tit-Bits* says: As memorials of past days, when the night of darkness depended on her wooden walls, there are no finer examples than the huge oaks that still stand in many parts of the country.

That these trees remain is probably due to the fact that the roads in earlier times were far too rough and transport too elementary to draw such vast weights for any considerable distance.

The largest oaks in England today are standing in the park at Powis Castle, near Welshpool. They are four in number, and it has been calculated that between them they contain no fewer than 7,000 cubic feet of timber. The circumference of the largest tree at the ground is 10 feet.

The oaks of Windsor have been celebrated for centuries, but old age has played havoc with their growth, and there are few really fine trees left.

William the Conqueror's Oak, reputed to be over 900 years old, is said to be a magnificent wreck, but in the Copwood Wood there is a tree which towers to a height of over 150 feet.

Not far away in the Drakelow Oak, Burnham Beeches, reputed to be 600 years old.

Shelter Doing Big Business

Plant At Trail, B.C., Pays \$1,000 Per Ton In Wages

Some interesting figures in connection with the plant operated by the Canadian Mining and Smelting Company at Trail, B.C., have been made public by W. B. Payne, secretary of the Vancouver Board of Trade, following a recent visit into the interior.

The shelter has a capacity of 750 tons of refined metals per day, and it is the largest metallurgical plant in the world. The total output is 410 tons daily, or one-tenth of the world's entire output.

The copper output runs 70 tons daily. During the past year the plant has required 5,000 tons of construction timber, 2,500,000 bricks, 4,000,000 feet of lumber, one carload of cement every two days, 118,000 tons of coal per year and 62,400 tons of coke per year.

The freight bill last year was \$3,000,000, or 1 per cent of the total freight paid in Canada.

Eight million dollars were paid out in wages, or approximately \$1,000 per ton. Added to this the cost of supplies would bring the expenditure to almost \$2,000 per hour.

Last year the company earned profits of approximately \$14,000,000.

Cancer Research

Investigations Carried On In England For Quarter Of A Century

The 25th annual report of the Imperial Cancer Research Fund, published in London, tells a story of per cent investigation which for a quarter of a century has been in progress. The story is as yet so incomplete that the goal of the work is in sight.

Dr. Murray, the director of the fund, deals at some length in the report with the disputed question whether or not cancer is a solitary growth of the body—that is to say, whether or not two or more cancers can begin together and co-exist as, for example, warts. Dr. Murray's evidence leads him to believe that the solitary view is in the right.

Tibet Closed To Foreigners

People Are Angry Over Statements Made By Explorer

The secretary of the Royal Geographical Society is unable to confirm the statement made by Captain Odel in New York that a new expedition to climb Mount Everest was being organized by the Vancouver Board of Trade, following a recent visit into the interior.

The India Office states that the next expedition to Mount Everest will not be made for some time, owing to the anger of the Tibetans at statements made by an explorer following his return from a secret trip to Tibet. This explorer is said to have exhibited on European lecture platform two Tibetan road menders as priests of the Dalai Lama, ruler of Tibet. When these statements drifted back to Tibet the Lama was so enraged that he refused to permit any more foreigners to visit the country. Under an agreement with the British officials in India foreigners are kept back from the gateway to Tibet by the British.

The latest explorer is said to have brought his wife to the British, and the Lama to look confinement in the cages, and to deny entrance to all foreigners.

At that time the British Government was negotiating with the Lama in behalf of the Royal Geographical Society, which desired to continue the exploration of Mount Everest. The society was forced to postpone the expedition, but when the Lama again hesitated, Richmond, Viceroy to his mysterious country, they will probably be the first guests.

The India Office had no negotiations were being carried out at present, but it received an inquiry some time ago from a German explorer connected with the Berliner Tagblatt as to the steps necessary for making the trip by way of British India.

For Both Houses and Stable.—There is a good deal of similarity, physiologically speaking, between human beings and the lower animals. Both are subject to many of the same diseases, and both are subject to the same remedies. The difference is in the degree of the disease, and in the degree of the remedy.

It's their precision that makes your set work and keep on working

The secret of Atwater-Kent reliability is not alone in expert designing nor in the exacting factory and laboratory tests, but in the extreme care given to every phase we are able to attain standards of precision otherwise impossible.

For instance, coil winding. As no radio set is better than its coils, we wind our own. At first, we employed men at this task. But the accurate winding of 100,000 of an inch in diameter happens to be an almost incredibly delicate operation. A hair's breadth difference in spacing might affect, if ever so little, the perfect reception you demand in your home. So now all Atwater-Kent coils are wound by wonderfully accurate machines operated by expert women operators.

Petroleum Coke

It goes further than the best soft coal and, therefore, cuts the cost of heating your home 35 to 50 per cent.

It is crude oil with the gasoline removed.
It contains absolutely no ash or other waste.
It does not stick in your fire like coal.
It is clean—no smoke, no soot, no dirt.
It is easy to fire and easy to load into fire.
It is burned instead of coal or wood in any stove or furnace.
It saves you money with less work, worry and attention in firing.
Do not confuse Petroleum Coke with Coal Coke, which contains ash.
Resolve to get away from the daily ash pan this winter. Burn something that will turn coal-draggery into a pleasant experience. It is large, lumpy, and bright.

Rev. H. H. Little, formerly pastor of Knox Church, Bassano, will preach in St. John's Presbyterian Church, Medicine Hat, next Sunday, Jan. 28th. Mr. Little will also be in Bassano Monday, Jan. 29th, on his return to his home in Edmonton.

"Naughty! Naughty!"

"Did Jean's mother find fault with her for arriving home with the milkman?"

"No," she scolded the milkman for coming so late."

Here and There

Preliminary figures indicate that mining production in British Columbia this year will be well up to previous records, although prices will be somewhat lower than of 1928, when a total of \$57,000,000 was recorded.

Tomato growing in the Kootenai district, B.C., has been so successful this year that the average will probably be increased 10 per cent next season. The present crop has been safely harvested and cured.

Not since 1917, has the Nova Scotia mining industry enjoyed so prosperous a season. During the year ending September 30, approximately 6,640,000 tons of coal were produced in the province against approximately 5,000,000 for the same period of last year.

The biggest shipment of live foxes to leave North America for the European market since the influenza boom developed left Charlottetown in a consignment of 1,000, bound for Norway, via Halifax. These animals are valued at from \$500 to \$1,500 a pair, and the entire shipment is valued at approximately half a million dollars.

Her Grace the Duchess of Atholl, prominent British peeress and Parliamentarian, was the central figure recently at the launching on the Clyde, Scotland, of the new Canadian passenger liner "Duchess of Atholl." These vessels will go into the Canadian Pacific Atlantic passenger service.

The elaborate figurehead of the "Empress of Japan," the first Pacific liner on the Canadian Pacific, has been mounted in Stanley Park, Vancouver. The "Empress of Japan" was a clipper type steamer, and the largest and fastest vessel navigating the Pacific. The figurehead was presented to the Vancouver Parks Board as a historic relic of that great port.

A special train of six cars carrying pig and swine and other exhibition and instruction purpose is now travelling through Southern Saskatchewan over the Canadian Pacific Railway. The stock is supplied by the Provincial Department of Agriculture, the Dominion Livestock Branch, Stockyard Commission, Packers and Breeders—all high-class stock. Lectures dealing with the breeding, feeding and management of sheep and swine are given by experts.

Through the auspices of the Canadian Colonization Association, 509 settlers, comprising 2,799 persons, were settled in Canada on 139,253 acres of land from January 1st to October 31st. The settlement of these families was personally supervised by officials of the Association, who completed the contract, and the land was cleared and planted. It is expected that 100 additional families will be settled before the end of the year. Since its start, the Canadian Colonization Association (a subsidiary of the Department of Colonization and Development) has settled 2,227 families, 124,189 acres and there are still settlement opportunities on 250,500 acres for 1,164 families. The percentage of success in these settlements is unusually high, being 100 per cent. In Alberta and 99.50 in Saskatchewan.

Something He Didn't Want
Father (arriving home): "What's your little brother crying for?"

Babe: "Buddy's not crying for anything—he's had it."

NEW PROVINCIAL HOSPITAL SOON READY FOR USE

The new hospital being established by the Provincial Department of Health for the treatment of patients from all parts of the province suffering from the after effects of infantile paralysis will be ready for use in January, it is announced by Hon. George Healey, minister of health. The new building is being erected by the department of public works on the grounds of the University Hospital in Edmonton.

DISTINGUISHED VISITOR TO VISIT ALBERTA

Plans are being made to entertain Hon. L. C. B. Emery, British secretary of state for the dominions, who is to spend Friday, January 13 in Edmonton, and Saturday, January 14 in Calgary. Col. Emery, with Mrs. Emery and party is expected to arrive at Victoria from Australia on January 6th, and will visit a number of other western Canadian cities in the course of a tour of the overseas dominions.

FISH HATCHERY FOR WATSON LAKES PARK

The contract for the fish hatchery which will be constructed in the Watson Lakes National Park at a cost of some \$15,000 has been awarded to Olaf and Scott, of Cardston. The exact location chosen is near the Kootenay River bridge, and it is expected that the hatchery will be completed by April 1, 1928. Game fish propagated in this hatchery will be used to stock a number of rivers and lakes in the southern part of the province.

SCHOOL ACT BEING REVISED

Suggestions from any responsible quarter on the revision of the School Act, now in progress, will be welcomed by the Department of Education, announced Hon. Percival Mackenzie, minister of education. Work in connection with the revision of the act covering the operation of Alberta schools is now going forward and officials of the department are anxious to have any communication on the subject sent in at as early a date as possible.

CLEARING SITE FOR KATON STONE IN CALGARY

Work has been started in preparation for the erection of the big departmental store to be built on the site of land recently purchased by the K. Eaton Co. Ltd., in Calgary. Actual construction work, it is stated, will commence in the spring. The total cost of the land and the building is expected to be in the neighborhood of a million dollars.

Well Hooked

Father: "Isn't that young man rather fast?"
Daughter: "Yes, but I don't think he'll get away."

A Housen

A hotel manager going along a corridor saw a kneeling bootblack cleaning a pair of shoes outside a bedroom door.
"Haven't I told you never to clean shoes in the corridor, but take them back down stairs?"
"Yes, sir," but the man in this room is a Scotchman, and he's hanging on to the shoe lace."

Bulmer Moves Store To Main Street

J. W. Bulmer moved his grocery store this week to the quarters he has been operating as a confectionery store on the main street, next door to the Bassano Radio Shop.

The warm weather greatly helped in the rapid and safe transfer of the stock. Mr. Bulmer still has a large amount of stock in the old store, and this will be moved later as he prepares a place for it.

The building vacated by Mr. Bulmer has been taken over by R. H. Eubanks.

Sir H. Thornton Predicts Great Progress In 1928

Montreal, Jan. 25.—In addressing his annual message to officers and employees of the Canadian National Railways, Sir Henry W. Thornton, chairman and president of the Canadian National, looks back upon the progress and success of 1927 as a reason for viewing the year in the immediate future with optimism. Sir Henry says, "The year 1927 was a year of progress and the expansion has been well balanced. There has been progress without inflation and the attainment of a boom."

"As the experiences of the country must necessarily be reflected in the experiences of the railways which serve it, I feel justified in saying that the year has been a gratifying one as far as the affairs of the Canadian National Railways are concerned. At this time, when the complete figures of the year's business are not yet available, it is not possible to give in exact terms the net results of the operations, yet I feel on safe ground when I state that they will be found satisfactory, though not reaching the high level attained in 1926. The gross earnings of the system have shown an appreciable increase when compared with those of 1926, but various factors have militated against the net revenue, and the final result will show a total less than that of last year. Based on the experiences of 11 months, it is estimated that the gross earnings of the National system will approximate two hundred and sixty million dollars, this figure excluding earnings on lines east of Lewis and Diamond Junction, which are now separated under the provisions of the Maritime Freight Rate Act, 1927, but includes the Central Vermont, now in receivership and which, for that reason, will be excluded from the annual report. On this basis the net earnings for 1927 have been placed at \$45,500,000.

Plans For New Calendar Of 13 Months Under Way

Vancouver, Jan. 25.—Every confidence is expressed by Moses Cotworth, who has spent upwards of forty years in the work of calendar reform, that the world will start this year on its last decade of use of the present day calendar. Spending a few weeks today at home, he now, Mr. Cotworth believes a reformed calendar will go into effect in 1933, and that decision to do so will be agreed upon at an international conference to be called by the League of Nations, which may be held in the fall of 1928, and which must be held not later than the summer of 1929 if the reform is to be effected five years hence.

Briefly, the calendar which Mr. Cotworth advocates after years of study and consultation with authorities throughout the world, would provide a year of 13 months of 28 days each, every month starting on a Sunday and ending on a Saturday. Every date would fall on the same day every year. The extra day needed beyond the 12 months to fill the year would be dated December 29 and named "year-day" and come between December 28 and January 1. In leap years a "day" of a universal holiday would be inserted at the end of June. The extra month would be known as "Sol" and come between June and July.

A colored "gent" took out a marriage license. A few days later he asked the clerk to substitute another woman's name for the one on the license, as he had changed his mind. He was told it would cost him another dollar and a half.

"You mean I got to get a new license?"

"Yes," said the clerk. The applicant replied with an air of determination: "Never mind, boss, this of one will do. Dar skin, no dollar and a half difference 'twixt den two, uh-huh?"

Some Pre-Inventory Specials

at
McKEE'S STORES

Just previous to our annual stock taking we offer you a few specials in fresh, seasonable merchandise. These are well worth picking up at the reduced prices.

Specials in Ladies' Silk Underwear

All odd garments and broken ranges reduced in price.
